

MANCHESTER CITY FOOTBALL CLUB Training Academy

Client: BAM Construction

Value: £330,000.00

*TMJ was presented with an **innovation award** for the concept and design of the de-mountable suspended timber ceiling installed in the Press Conference Room which is now used by the world media. Working closely with our joinery manufacturer we produced an exceptionally high quality product that not only exceeded the expectations of the client but provided them with a valued solution for their complex requirements.*

Architectural timber ceiling system to the Press Conference Room

Feature timber ceiling to the Heart of the City foyer area

Installation of bespoke performance doorsets and architectural ironmongery

Washroom/Vanity fixtures and fittings

Feature Oak skirting

MDF Profiles

Project challenges:

Design of the de mountable timber ceiling, combining creativity with feasibility

Working with American specifications set by an American architect

Collaborating with BAM to achieve various KPIs in relation to sustainability and community investment
